ECONOMIC INDICATORS

as of May 2011

NYC OFFICE OF THE COMPTROLLER
BUREAU OF ASSET MANAGEMENT

GROSS DOMESTIC PRODUCT

2

- NOTE: THE MARKET INDICATORS CONTAINED IN THE BOARD MATERIALS ARE A SUBSET OF INDICATORS RELEVANT TO FUND PERFORMANCE AND STRATEGIC PLANNING AND ARE NOT INTENDED AS THE EXCLUSIVE INDICATORS.

CAPACITY UTILIZATION

3

- NOTE: THE MARKET INDICATORS CONTAINED IN THE BOARD MATERIALS ARE A SUBSET OF INDICATORS RELEVANT TO FUND PERFORMANCE AND STRATEGIC PLANNING AND ARE NOT INTENDED AS THE EXCLUSIVE INDICATORS.

ISM MANUFACTURING INDEX

- NOTE: THE MARKET INDICATORS CONTAINED IN THE BOARD MATERIALS ARE A SUBSET OF INDICATORS RELEVANT TO FUND PERFORMANCE AND STRATEGIC PLANNING AND ARE NOT INTENDED AS THE EXCLUSIVE INDICATORS.

WEEKLY UNEMPLOYMENT CLAIMS

5

- NOTE: THE MARKET INDICATORS CONTAINED IN THE BOARD MATERIALS ARE A SUBSET OF INDICATORS RELEVANT TO FUND PERFORMANCE AND STRATEGIC PLANNING AND ARE NOT INTENDED AS THE EXCLUSIVE INDICATORS.

UNEMPLOYMENT RATE

6

- NOTE: THE MARKET INDICATORS CONTAINED IN THE BOARD MATERIALS ARE A SUBSET OF INDICATORS RELEVANT TO FUND PERFORMANCE AND STRATEGIC PLANNING AND ARE NOT INTENDED AS THE EXCLUSIVE INDICATORS.

CONSUMER SENTIMENT

- **NOTE: THE MARKET INDICATORS CONTAINED IN THE BOARD MATERIALS ARE A SUBSET OF INDICATORS RELEVANT TO FUND PERFORMANCE AND STRATEGIC PLANNING AND ARE NOT INTENDED AS THE EXCLUSIVE INDICATORS.**

ARCHITECTURAL BILLINGS INDEX

8

- A SCORE ABOVE 50 INDICATES AN INCREASE IN BILLINGS WHILE A READING BELOW 50 INDICATES A NEGATIVE OUTLOOK
- THIS INDEX IS CONSIDERED A LEADING INDICATOR FOR COMMERCIAL BUILDING CONSTRUCTION WITH A 6-9 MONTH LAG
- NOTE: THE MARKET INDICATORS CONTAINED IN THE BOARD MATERIALS ARE A SUBSET OF INDICATORS RELEVANT TO FUND PERFORMANCE AND STRATEGIC PLANNING AND ARE NOT INTENDED AS THE EXCUSIVE INDICATORS.

EXISTING HOME SALES

- NOTE: THE MARKET INDICATORS CONTAINED IN THE BOARD MATERIALS ARE A SUBSET OF INDICATORS RELEVANT TO FUND PERFORMANCE AND STRATEGIC PLANNING AND ARE NOT INTENDED AS THE EXCLUSIVE INDICATORS.

NEW HOUSING STARTS

10

- NOTE: THE MARKET INDICATORS CONTAINED IN THE BOARD MATERIALS ARE A SUBSET OF INDICATORS RELEVANT TO FUND PERFORMANCE AND STRATEGIC PLANNING AND ARE NOT INTENDED AS THE EXCLUSIVE INDICATORS.

RETAIL SALES

- NOTE: THE MARKET INDICATORS CONTAINED IN THE BOARD MATERIALS ARE A SUBSET OF INDICATORS RELEVANT TO FUND PERFORMANCE AND STRATEGIC PLANNING AND ARE NOT INTENDED AS THE EXCLUSIVE INDICATORS.

US AUTO SALES

12

- NOTE: THE MARKET INDICATORS CONTAINED IN THE BOARD MATERIALS ARE A SUBSET OF INDICATORS RELEVANT TO FUND PERFORMANCE AND STRATEGIC PLANNING AND ARE NOT INTENDED AS THE EXCLUSIVE INDICATORS.

INDEX OF LEADING ECONOMIC INDICATORS

13

- THE INDEX OF LEI IS COMPOSED OF: AVE. WEEKLY MANUFACTURING HRS, AVE. WEEKLY JOBLESS CLAIMS, MANUFACTURERS' NEW ORDERS-CONSUMER & CAPITAL, VENDOR PERFORMANCE, NEW BUILDING PERMITS, STOCK PRICES, MONEY SUPPLY-M2, INT. RATE SPREADS & CONSUMER EXPECTATIONS
- NOTE: THE MARKET INDICATORS CONTAINED IN THE BOARD MATERIALS ARE A SUBSET OF INDICATORS RELEVANT TO FUND PERFORMANCE AND STRATEGIC PLANNING AND ARE NOT INTENDED AS THE EXCLUSIVE INDICATORS.

INFLATION- CPI

14

- **NOTE: THE MARKET INDICATORS CONTAINED IN THE BOARD MATERIALS ARE A SUBSET OF INDICATORS RELEVANT TO FUND PERFORMANCE AND STRATEGIC PLANNING AND ARE NOT INTENDED AS THE EXCLUSIVE INDICATORS.**

Source: PCG historical cash flow data. TTG cash flow data from Fund Managers, effective 2005.

Note: The equity multiples and IRRs contained in this report are interim calculations based upon information provided by the investment managers of the New York City Retirement Systems, including cash flows and quarterly unaudited, or audited, valuations. The IRR calculated in early years of a fund life is not meaningful given the J-curve effect and can be significantly impacted by the timing of cash flows, investment strategy, investment pacing, and fund life. The calculations are not necessarily indicative of total fund performance, which can only be determined after the fund is liquidated and all capital contributed and earnings have been distributed to the investor. All data supplied is as of December 31, 2010.

Note: The General Partner of the JPMorgan Urban Renaissance Fund terminated the Fund on February 23, 2010 and all capital contributed, including management fees, was returned to investors.

**This investment is for a pediatric nursing facility in Yonkers, approximately 4 miles from the NYC border. It will finance a replacement facility for the Elizabeth Seton Pediatric Center, currently located in Chesebrough, which is "one of only two pediatric nursing facilities in downstate New York, and the only one dedicated to long-term care." The new facility will have 137 beds and serve children from NYC, Westchester and Putnam Counties.

The Townsend Group Performance Measurement Report

TEACHERS' RETIREMENT SYSTEM OF THE CITY OF NEW YORK

FOURTH QUARTER 2010

I. Performance Summary

At the end of the Fourth Quarter 2010, ("Quarter") The Teachers' Retirement System of the City of New York ("NYCTRS") Real Estate Portfolio ("Portfolio") had a cumulative market value of \$538 million. Total market value plus unfunded commitments was \$984 million, or 48.8% of the real estate allocation. During the Quarter, the Portfolio achieved a total gross return of 8.9% which was comprised of 1.1% income and 7.9% appreciation. The NCREIF Open-end Diversified Core Equity Index ("NFI-ODCE") reported a total net return of 4.7%. In addition, the Portfolio achieved a total net return of 8.4%.

The following chart reflects the total net returns for the NYCTRS' Portfolio compared to the NFI-ODCE. Real estate continues to offer attractive returns compared to other asset classes. Capital appreciation advanced in 2010 ahead of expectations, particularly in the "elite" markets, as relatively high income yields attracted capital from fixed income and other asset classes. Capital value recovery has outpaced the recovery in fundamentals due, in part, to monetary easing which has produced lower interest rates. Recovering fundamentals and yield spreads over the risk-free rate support current valuations. Core appraisal pricing is reasonable and we have expanded our focus to include stable leased properties in primary markets. We believe tactical buying opportunities will continue in primary markets with assets facing lease-up risk as well as sales from financial institutions and distressed sellers. Historical data suggests that periods following major downturns are opportune times to pursue new investments on a selective basis. The benchmark established for the Portfolio is the NFI-ODCE net over rolling five-year periods.

The graph below shows the total net returns for the Portfolio by quarter since inception. NFI-ODCE total net return performance is also included. It is important to note the effects of the "J-curve" whereby fees on committed capital exceed distributions to the Portfolio due to minimal invested capital and the early stages of the value-added/opportunistic process in the underlying investments.

The table below reflects the returns for the Portfolio and the NFI-ODCE during pertinent time periods and segments these returns by their components: income, appreciation, and total return. The Portfolio's objective is to generate a total net return that exceeds the NFI-ODCE total net return measured over rolling five-year periods.

II. Portfolio Composition

New York City Teachers Retirement System			
Total Plan Assets	12/31/10	\$	40,306

Investment Cash Flow Summary		
	Quarter	To Date
Contributions	\$49.3	\$822.6
Distributions	-\$4.3	-\$262.0
Withdrawals	\$0.0	-\$57.9

Contributions: Includes actual cash funded to the investment for acquisition and capital items during the quarter.

Distributions: Includes actual cash returned during the quarter from the investments which represents distributions of income from operations and profit.

Withdrawals: Includes cash returned from the investment as a result of return of capital.

III. Portfolio Compliance

Category	Requirement	Portfolio Status
Benchmark	NFI-ODCE (net) over rolling five-year periods	<i>Portfolio returns in excess of benchmark.</i>
Portfolio Composition	Core/Core Plus (minimum of 40%) Non Core (minimum of 40%) Non Core Emerging (greater of \$84 million or 5% of the total real estate allocation)	<i>The portfolio is funded (market value) and committed at 48.8% of real estate allocation with a portfolio composition of 42.2% core, 54.3% non-core, and 3.5% emerging.</i>
Real Estate Allocation	Target of 5.0% Currently Funded at 1.3%	<i>Funded (market value) and committed dollars place the portfolio at 2.4% of total plan assets.</i>
Diversification	± 30% of NFI-ODCE Other property type (0%-15%)	<i>All property types and geographic locations are in compliance.</i>
LTV	50%	<i>Portfolio is in early stages of funding, but is out of compliance (54.0%).</i>
Manager Exposure	0%-25% of real estate allocation	<i>Manager exposure is within compliance ranges.</i>

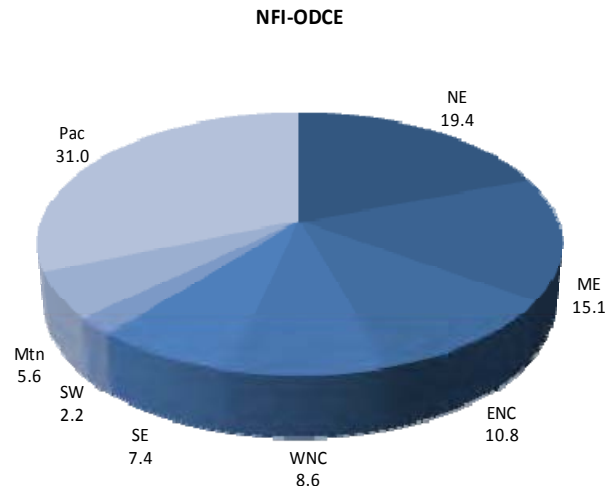

IV. Portfolio Diversification

The Investment Policy Statement (IPS) establishes ranges for diversification by property type and geographic region. These ranges are broad based and allow for investment in all major property types and all geographic regions. The diversification of the current portfolio by property type and geographic region is shown below and compared to diversification of the NFI-ODCE at the end of the Quarter.

Firm Update

Teachers' Retirement System of the City of New York

Fourth Quarter 2010 Report

2010 Hamilton Lane Update

Over the course of 2010, Hamilton Lane continued to expand our business and add to our pool of talented and highly qualified individuals. With a client centric approach to our business, this growth reflects the goals of providing every client with both opportunistic investments and exemplary client service. Similar to previous years, attaining these goals is increasingly important as we continue to face uncertainties within the global financial markets.

We believe that the global nature of this asset class demands that we have a presence in all of the major geographic markets. Our team is now made up of more than 150 employees (an increase of more than 30 individuals since our last update), 14% of whom are located outside of the United States.

Gaining a number of client mandates throughout 2010 has enabled us to continue our collaboration with sophisticated, thoughtful institutional investors across the globe. To this end, our extensive diligence efforts also continued as we met with more than 390 general partners during the year.

Firm Growth

With respect to employee growth, we note the addition of five senior professionals in 2010:

- Camilla Rasmussen, a Vice President in our Business Development Group based in our London office.
- Jackson Chan, a Vice President in our Business Development Group based in our Hong Kong office.
- Melissa Nigro, a Vice President and Product Manager for our diversified funds-of-funds based in our Bala Cynwyd office.
- Lars Pace, a Vice President and Relationship Manager, based in our Bala Cynwyd office.
- Keith Brittain, a Vice President on our Due Diligence Team focusing on Secondary Investments.

Overall, we grew by 34 people during the past 12 months across all departments including due diligence, monitoring and reporting, relationship management and IT.

Teachers' Retirement System of the City of New York

Fourth Quarter 2010 Report

Product Updates

Our firm has grown strategically over the past year as well, as detailed below:

- We held a fourth close on Hamilton Lane Private Equity Fund VII, L.P. in January 2011; we anticipate holding a final close in June 2011. The Fund is a globally diversified fund-of-funds pursuing the following principal strategies: primary partnership investments, co-investments and secondary transactions.
- We began fundraising in January 2011 for Hamilton Lane-Carpenters Partnership Fund III L.P., which is specific to Carpenters investors throughout North America. The Fund has a target commitment of \$400 million, and we anticipate holding a first close in the first quarter of 2011.
- We will be launching Hamilton Lane Secondary Fund III later this year. This is a successor fund to Hamilton Lane Secondary Fund II, which closed on \$591 million in August 2009.

Fund Administration

Hamilton Lane is excited to announce that its performance reporting service is now being offered as a standalone product. This product expansion is in line with Hamilton Lane's mission of continuously improving while diligently searching for new and innovative ways to service our existing clients and reach potential new clients. We believe that outsourcing fund administration gives an institutional investor two major advantages: first, having an experienced third party manage the complexities of performance reporting gives the institutional investor peace of mind; and second, outsourcing allows the client's internal staff to focus on managing its assets.

With more than 20 years of fund administrative experience we provide services to small and large institutions around the world to include:

- Portfolio monitoring and reporting
- Cash flow transactional reporting
- Detailed portfolio holding reports
- Timely and transparent client reports

We monitor and report on both private equity and real estate. Spanning more than 29 years our fund database includes more than 1,700 funds representing more than 500 managers, providing us access to an extensive data pool. This, along with our proprietary models, allows us to conduct detailed analytics on individual investments, industry trends and portfolio progress. Further, Hamilton Lane's technology is state-of-the-art, providing web-based fund and portfolio holding reports as well as a document warehouse. Lastly, having our operational team SAS 70 Type II certified exemplifies the pride we take in our data integrity and operational oversight.

Teachers' Retirement System of the City of New York

Fourth Quarter 2010 Report

Recent Accolades

Hamilton Lane is pleased to announce that we were awarded the European Gatekeeper of the Year Award for 2010, the second time we've received this honor. We appreciate the acknowledgement and the opportunity to work with all of our clients around the world.

Section 2:

Market Update

Teachers' Retirement System of the City of New York

Fourth Quarter 2010 Report

March 2011

The global economic environment has recently shown positive signs of continued improvement led by increased growth in the United States and Asian economies. However, the lingering European sovereign debt crisis, political unrest in the Middle East and North Africa ("MENA") and economic and other hardships related to the Japanese earthquake pose significant impediments to continued growth. Public indices suggest that the United States is emerging and helping to lead the way out of a global recession, as illustrated by the 13% appreciation in the S&P 500 from December 31, 2009 to December 31, 2010 and continued increase of 4% subsequent to year-end¹. With the U.S. stock market rebound and increased availability of credit, stable companies once again have access to capital markets as a source of funding and liquidity. Favorable U.S. data has continued on the consumer front as well; the February 2011 U.S. consumer confidence index topped the highest level in three years, and the U.S. unemployment rate fell in February 2011 to 8.9%, the lowest level in 22 months. Despite the positive developments, certain headwinds are still present as the U.S. unemployment rate continues to be relatively high when compared to average rates over the last ten years and consumers continue to struggle with depressed real estate asset values, which may restrain consumer spending in the near term. To help mitigate these concerns, the sustained availability of low cost capital, coupled with continued efforts to trim debt and build cash, should make both consumers and corporations better equipped to help grow the global economy in the long-term with ready cash.

Asia as well as other emerging markets experienced significant growth in 2010, rapidly rebounding from the global economic crisis with increased cash inflow as investors sought areas with growth opportunities. In Europe, the sovereign debt crisis has dominated headlines throughout 2010. Beginning in Greece in January 2010, the crisis spread throughout Europe and escalated mid-year market volatility to levels comparable to the depths of the financial crisis. While the European Union did create a €750 billion emergency facility, the issue still remains a great concern to market participants. We believe Portugal, Ireland and Spain currently pose the greatest cause for concern. Political uncertainties in MENA have accelerated in recent months. Following Egypt's revolution, unrest erupted in Libya with Muammar Qaddafi losing control of much of the country's oil-rich east. Libya is Africa's largest producer of oil, but only ranks 15th among the world's oil exporters². Traders have been concerned that fighting could not only jeopardize Libya's oil production, but also spread to other countries in the region such as Saudi Arabia. Increased oil prices also weigh on the U.S. economy by increasing business' operating costs and decreasing consumers' disposable income. A sustained \$10 increase in the price of oil translates into a 0.2 percent cut in economic growth over 12 months and poses a risk to global growth, according to a recent estimate by economists at Goldman Sachs.

Teachers' Retirement System of the City of New York

Fourth Quarter 2010 Report

Transaction Volume

The private equity buyout industry experienced a resurgence in global deal activity in 2010 as 2,171 deals³ were announced with an aggregate value of \$225 billion⁴, a 38% increase in number and 89% increase in value of deals globally compared to 2009. Asia and Rest of World continued to account for a greater percentage of overall deal activity in 2010 as there were 279 deals announced valued at \$27 billion³, a 61% increase in value from 2009. Transaction volume during the fourth quarter of 2010 was higher than 35 of the last 47 quarters, and represented the peak of deal flow for the year, and for any quarter since mid-2008⁴. Purchase multiples continued to rise during 2010 and are close to 2006 levels⁵; resulting in transactions being executed at the largest average prices seen in the post financial crisis landscape. One of the notable trends that emerged during the year was an increase in bigger deals, which was largely fuelled by improved credit conditions. The largest deal announced in 2010 was the \$5.3 billion public-to-private transaction of Del Monte Foods Company by KKR, Vestar Capital Partners and Centerview Partners. The equity contribution in the Del Monte deal was much lower than the average equity contribution level required by investors in 2010 of 41%, down only slightly from 2009's peak of 46%⁶.

In addition to the increased availability of leverage, record levels of cash on corporate balance sheets is stimulating deal activity. Private equity firms have found ways to capitalize on the economic recession by growing their portfolio companies through the acquisition of struggling competitors and complimentary new businesses. Pitchbook reported that add-ons as a percentage of private equity buyouts climbed for the sixth straight year in 2010 to account for 41% of all U.S. buyouts. While market conditions are still challenging, there remains a significant amount of uninvested capital, approximately \$485 billion⁷, sitting idle in general partner's coffers, and with market confidence and leverage availability returning, buyout deal flow is likely to maintain an upward trend going into 2011.

Fourth Quarter 2010 Report

Fundraising

While deal volume is increasing, the capital overhang of \$485 billion continues to make fundraising difficult. Funds that reached a final close in 2010 spent an average of 20.4 months on the road, almost double the time spent by 2007 and 2008 vintage funds³. The average fund size was down markedly in 2010 to \$911 million from \$1.5 billion just two years ago⁷. The decline in fund size came as general partners opted to close funds short or at the low end of their target range rather than spend more time on the road. Moreover, mega and large buyout managers were not as active in fundraising as they had been in previous years. Despite the difficulties, there were some positives in private equity fundraising during 2010. Mid-market buyout funds had some success as they were responsible for raising nearly 90% of the total capital in the U.S. for 2010⁷. Firms with exceptional historical track records and strong management teams were also able to raise capital quickly and in some cases exceed their targets. Asia and Rest of World focused funds increased their market presence in 2010, increasing it from 11% of global fundraising in 2009 to account for 19% of the marketplace in 2010³.

Teachers' Retirement System of the City of New York

Fourth Quarter 2010 Report

Exit Activity

In addition to an increase in deal volume, there has been a marked surge in exit activity. The number of private equity exits reached 811 for 2010, which equates to twice the number of deals and three times the total value seen in 2009. The aggregate value of exited deals for the fourth quarter of 2010 was a high for the buyout industry, as firms began to exit the massive volume of investments made during the boom years of 2005 to mid-2008. Favorable market conditions have been a significant driver of the rise in exit activity, which allowed general partners to not only exit mature portfolio companies, but sell them at expanded multiples relative to entry.

While the majority of exits came via strategic acquisitions, 2010 saw a shift back to secondary sales and IPOs. Secondary sales, or PE-to-PE transactions, increased in both number and value throughout the year, surpassing the previous two years. While this does generate liquidity for limited partners, in the case of larger private equity portfolios, these types of exits could have a limited effect on a limited partner's capital-at-risk. The IPO window has begun to reopen as 2010 witnessed 145 IPOs and share sales with an aggregate value of \$39 billion, double the aggregate value seen in 2009, and a twelve-fold comparison to 2008, the lowest point for IPO activity in recent years³. There have already been several successful PE-backed IPOs in 2011 including, energy company Kinder Morgan raising \$2 billion and hospital chain HCA raising \$3.8 billion. The \$3.8 billion offering for HCA was the largest IPO in private equity history and brought 2011 IPO volume as of March 10, 2011 to \$12.5 billion, which is six times larger than volume at this time last year⁴. Moreover, Thompson Reuters reported there have been more IPOs so far in 2011 than in 2008, 2009 and 2010 combined.

Fourth Quarter 2010 Report

Cash Flow Trends

Industry aggregate cash flow estimates based on Hamilton Lane's database turned cash flow positive during the fourth quarter of 2010 for the first time in several years. On an absolute level, distributions during the fourth quarter exceeded the prior eleven quarters, while contributions outpaced six of the prior seven quarters. The high levels of capital calls and distributions are expected to continue as firms put remaining dry powder to work and exit some of the investments made during the boom years.

 *Fund level cash flow data of all funds in Hamilton Lane database (as of Feb 5, 2011) grouped by vintage year, then multiplied by the ratio of total PE commitments by vintage year (from ThomsonOne) over Hamilton Lane's commitments to generate a proxy for the PE universe

Teachers' Retirement System of the City of New York

Fourth Quarter 2010 Report

Outlook

The public equity markets rallied in 2010; however, continued high unemployment figures and rising oil prices caused by turmoil in the Middle East pose risks to global growth. The political strife overseas as well as sovereign debt issues in Europe and broader concerns about the global economic recovery represent sizable headwinds; however, a number of factors support cautious optimism for 2011. Increased availability of credit, as well as significant amounts of dry powder and corporations flush with cash, supports continued competition for deal flow. Pricing for new deals continues to increase and equates to general partners paying full entry multiple valuations. On the other hand, it can offer attractive exit opportunities on the sale side for general partners that spent a significant amount of time in 2009 and 2010 pushing out debt maturities, aggressively cutting costs and maximizing operations of their existing portfolio companies to better position an exit. The IPO markets are opening up and are providing exit opportunities for large and mega deals completed during the boom years. In addition, strategic acquisitions and secondary sales are providing strong avenues for exit, and dividend recapitalizations are creating means for liquidity. Limited partners enjoyed an increase in distributions during the fourth quarter of 2010, and robust financing and strong performance of equity markets thus far in 2011 suggests that the trend will continue. Despite the cautious optimism, events around the world are worrisome enough that the investment landscape could quickly change.

Section 3:

Portfolio Update

Teachers' Retirement System of the City of New York

Fourth Quarter 2010 Report

Portfolio Snapshot

Hamilton Lane was engaged by the Teachers' Retirement System of the City of New York ("TRS") in October 2010 to provide alternative investment consulting services in accordance with the investment objectives of the TRS Private Equity portfolio (the "Portfolio"). This report represents the review by Hamilton Lane of TRS's Portfolio and is based upon information made available to Hamilton Lane by the general partners sponsoring each of the partnership investments in the Portfolio as of December 31, 2010, with highlights through March 31, 2011.

Private Equity Target: TRS has a target of 4% to Private Equity for 2011.

Performance: As of December 31, 2010, the Portfolio consists of 125 partnerships and 85 underlying fund managers. The Portfolio has generated a since inception internal rate of return ("IRR") of 8.13% and a total value multiple of 1.2x.

Portfolio Summary			
\$ millions	9/30/2010 ⁽¹⁾	12/31/2010	Change
Active Partnerships	124	125	1
Active GP Relationships ⁽²⁾	84	85	1
Capital Committed ⁽³⁾	\$3,330.3	\$3,363.7	\$33.4
Unfunded Commitment	\$1,363.2	\$1,289.8	(\$73.4)
Capital Contributed	\$2,265.6	\$2,385.4	\$119.8
Capital Distributed	\$868.7	\$947.4	\$78.7
Market Value	\$1,745.7	\$1,912.8	\$167.1
Total Value Multiple	1.2x	1.2x	-
Since Inception IRR	6.69%	8.13%	144 bps
Avg. Age of Active Commitments	4.1 years	4.3 years	0.2 years

⁽¹⁾ Hamilton Lane has reconciled TRS historical data with the General Partner since the release of the September 30, 2010 report. The data as of September 30, 2010 will vary from what was originally reported on the TRS Third Quarter 2010 report.

⁽²⁾ The Active GP relationships include the General Partner Aldus, the manager of Erasmus New York City Growth Fund, L.P. According to the information provided to Hamilton Lane, the General Partner status for this fund is to be determined

⁽³⁾ The "change" in capital committed from the prior year reflects currency adjustments from existing foreign denominated funds.

Portfolio Exposures: The Corporate Finance/Buyout strategy represents 72% of the Portfolio's total exposure, Venture Capital accounts for 11%, Special Situation represents 10%, Distressed Debt represents 4%, Mezzanine represents 2% and Secondaries accounts for the remaining 1%. The Portfolio has significant exposure to North America; 79% of the underlying company market value based in the region.

Fourth Quarter 2010 Report

Portfolio Overview

Commitments

The table below highlights the funds that closed during 2010.

Year-to-Date Commitments - 2010			
Closing Date	Partnership	Investment Strategy	Commitment Amount
12/17/10	Trident V, L.P.	Corporate Finance/Buyout	\$35.0
Total			\$35.0

During the fourth quarter of 2010, the Portfolio completed one additional investment. Subsequent to the fourth quarter of 2010 the Portfolio made an additional commitment of \$35.0 million, detailed above:

Trident V, L.P. (\$35.0 million) the fund will seek to make control oriented investments in cash flow or service companies with proven business models and quality management teams. The fund has opportunistically made investments in balance-sheet oriented companies in response to severe dislocations in the financial services space. Given the current environment, the fund anticipates that several of these investments will be made by the partnership including up to 20% in bank investments.

The table below details performance of the Portfolio in comparison with two comparable Hamilton Lane clients; the data below represents the most recently available data for Plan A and Plan B.

Competitive Pension Plan Statistics			
	NYC Teachers	Plan A	Plan B
Allocation to Private Equity	4%	10%	10%
Since-Inception Return as of 12/31/10	8.13%	12.68%*	6.77%**

* Data as of 9/30/2010

** Data as of 6/30/2010

Teachers' Retirement System of the City of New York

Fourth Quarter 2010 Report

Performance

The chart below is a graphical depiction of the IRR performance of the Portfolio with respect to 1-, 3-, 5-, and since-inception time periods. The Portfolio is benchmarked against the VE Pooled IRR, Top Quartile VE and the Russell 3000 plus 500 basis points.

Note: Since Inception IRR for VE benchmarks represent the returns for funds within latest 10 vintage years, the closest available benchmark to the inception date of NYC Teachers Portfolio. The Russell 3000 Total return index incorporates the Long Nickels methodology where the assumption is that the capital is being invested and withdrawn from the index on the days the capital was called and distributed from the underlying fund managers. This calculation includes a 5% premium.

- As private equity is a long-term asset class, the most significant time horizons are the ten year and since inception time periods.
 - Performance on a since-inception basis for the fourth quarter of 2010 increased by 144 basis points, with the Portfolio generating an IRR of 8.13%. Performance for the one-year time horizon was 16.61%.

Teachers' Retirement System of the City of New York

Fourth Quarter 2010 Report

The table below details quarterly performance of the Portfolio for the year ending December 31, 2010.

Portfolio Summary					
in \$ millions	Quarter Ending				Year Ending
	3/31/2010	6/30/2010	9/30/2010	12/31/2010	12/31/2010
Beginning Market Value	\$1,471.6	\$1,567.1	\$1,600.8	\$1,745.7	\$1,471.6
Paid-in Capital	66.5	88.8	109.1	119.8	384.2
Distributions	(36.2)	(45.4)	(41.6)	(78.7)	(201.9)
Net Value Change	65.2	(9.7)	77.4	126.0	258.9
Ending Market Value	\$1,567.1	\$1,600.8	\$1,745.7	\$1,912.8	\$1,912.8
Unfunded Commitments	\$1,529.7	\$1,443.3	\$1,363.2	\$1,289.8	\$1,289.8

Point to Point IRR	4.37%	(0.61%)	4.74%	7.08%	16.61%
Since Inception IRR	6.41%	5.76%	6.69%	8.13%	8.13%

- Over the past twelve months, the Portfolio has generated an IRR of 16.61% and has experienced a total of \$258.9 million in net value gain.
- Pegasus Partners IV was the top performing partnership for the year ended December 31, 2010, generating a net value increase of \$20.3 million and a point-to-point IRR of 76.71%.
 - Pegasus IV distributed \$0.7 million during the year to the Portfolio. The partnership called \$4.4 million for the year ending December 31, 2010, for investments.

Teachers' Retirement System of the City of New York

Fourth Quarter 2010 Report

Value Drivers

The table below displays the Portfolio's top five performance drivers by net value change for the quarter ending December 31, 2010.

Top Five Performing Investments for the Quarter Ending December 31, 2010				
Investment Name	Vintage Year	Net Value Change (\$ Millions)	Point-to-Point IRR	Since Inception IRR
Pegasus Partners IV, L.P.	2007	\$16.5	51.40%	52.73%
Vista Equity Partners Fund III, L.P.	2007	7.5	26.97%	33.26%
Ares Corporate Opportunities Fund III, L.P.	2008	7.2	21.56%	31.77%
Silver Lake Partners II, L.P.	2004	4.6	16.95%	10.93%
Clayton, Dubilier & Rice Fund VII, L.P.	2005	4.4	14.48%	7.30%

- The above five partnerships generated a net value increase of \$40.2 million in the fourth quarter 2010.
 - Pegasus Partners IV, a 2007 mid-market buyout partnership, was the top performing investment for the quarter, generating a net value change of \$16.5 million. The partnership called just under \$1.0 million and distributed less than \$0.1 million in capital in the fourth quarter. The total portfolio is currently being held at a 2.5x multiple. The portfolio company with the largest increase in holdings value for the quarter was Molycorp Minerals, LLC, a materials company based out of Colorado. The company was previously held at 8.5x cost as of September 30, 2010; as of December 31, 2010, the company is being held at 14.9x cost.
 - Vista Equity Partners Fund III, also a 2007 mid-market buyout partnership, was the second best performing partnership for the fourth quarter, generating \$7.5 million in net value change. Portfolio holdings are currently being held at 1.9x cost as of December 31, 2010. The partnership distributed \$11.7 million to the TRS in the fourth quarter, as a result of a partial sale and recapitalization proceeds from Sunquest Information Systems, a Tucson-based healthcare information systems provider to large and mid-sized hospitals, clinics and other facilities.

Teachers' Retirement System of the City of New York

Fourth Quarter 2010 Report

The table below shows the Portfolio's bottom five performance drivers by net value change for the quarter ending December 31, 2010.

Bottom Five Performing Investments for the Quarter Ending December 31, 2010				
Investment Name	Vintage Year	Net Value Change (\$ Millions)	Point-to-Point IRR	Since Inception IRR
Constellation Ventures III, L.P.	2007	(\$1.2)	(17.70%)	(19.08%)
NGN BioMed Opportunity II, L.P.	2008	(0.9)	(13.72%)	(12.99%)
Blackstone Capital Partners V, L.P.	2006	(0.9)	(1.39%)	(0.76%)
USPF II Institutional Fund, L.P.	2005	(0.9)	(2.97%)	6.54%
Leeds Equity Partners V, L.P.	2008	(0.9)	(15.77%)	3.45%

- The above five partnerships generated a net value loss of \$4.8 million in the fourth quarter 2010.
- Constellation Ventures III, a 2007 multi-stage venture capital partnership, was the worst performing partnership in the fourth quarter 2010, generating (\$1.2) million in net value loss. There was no distribution activity and there was minimal capital call activity in the fourth quarter. The portfolio investments are currently being held at 0.7x cost as of December 31, 2010.
- NGN BioMed Opportunity II, a 2008 late-stage venture capital partnership, was the second bottom performing partnership for the quarter, experiencing a net value loss of (\$0.9) million. There was no cash flow activity during the fourth quarter. Portfolio investments are currently being held at 0.8x cost as of December 31, 2010.

Teachers' Retirement System of the City of New York

Fourth Quarter 2010 Report

Cash Flow Drivers

The chart below highlights the cash flows of the Portfolio over the past five quarters ended March 31, 2011.

- For the year ended December 31, 2010, the Portfolio was cash flow negative with contributions outpacing distributions by \$182.3 million. Contribution activity steadily increased throughout each quarter of 2010, but the first quarter of 2011 saw contributions decrease by 39%. Distributions increased by 16% during the first quarter of 2011 totaling \$91.2 million, the most over the past year.
 - During the first quarter 2011, Silver Lake Partners II distributed \$6.7 million, which represented the largest amount received by the Portfolio.
 - This distribution was a result of sale proceeds (and interest income proceeds) from Avago Technologies, Nasdaq, Avaya and NXP.
 - Carlyle Partners V called the most capital, calling \$7.6 million for the quarter ending March 31, 2011.
 - Capital was called for bridge financing and investments CommScope, Syniverse, and an additional investment in RPK.

Teachers' Retirement System of the City of New York

Fourth Quarter 2010 Report

Portfolio Exposures

The pie charts below represent the strategic and geographic diversification of the Portfolio as of December 31, 2010. Strategy is measured by total exposure, which is the sum of the market value and the unfunded commitments and provides a snapshot of the Portfolio's future diversification. Geography is measured by the Portfolio's exposed market value of the underlying portfolio companies.

**Strategic Diversification
by Total Exposure
As of December 31, 2010**

**Underlying Investment Diversification
by Geographic Location
As of December 31, 2010**

- The Portfolio is focused in the Corporate Finance/Buyout strategy, with 72% of the total exposure attributable to this strategy.
- With respect to geography, the Portfolio is concentrated in North America, with 80% of the Portfolio's underlying market value attributable to this region.
 - The remaining 21% of the Portfolio's exposure is diversified between Western Europe, 'Rest-of-World' and Asia.

Teachers' Retirement System of the City of New York

Fourth Quarter 2010 Report

Private Equity Company Exposure

The table below identifies the top ten underlying companies held by private equity partnerships as measured by exposed market value as of December 31, 2010. As noted in the second column, the values of companies held by several partnerships have been aggregated.

Top 10 Portfolio Holdings by Exposed Market Value December 31, 2010			
Company Name	Partnership	Exposed Valuation (\$ Millions)	% of Total Portfolio
AmeriCold Realty Trust	Yucaipa American Alliance Fund I, L.P. Yucaipa American Alliance Fund II, L.P.	\$41.4	2.5%
Lighting Science Group Corporation (fka LED Holdings)	Pegasus Partners IV, L.P.	21.4	1.3%
Molycorp Minerals, LLC	Pegasus Partners IV, L.P.	20.6	1.3%
LeverageSources, L.P.	Apollo Investment Fund VII, L.P.	15.0	0.9%
Guitar Center, Inc.	Ares Corporate Opportunities Fund II, L.P. Ares Corporate Opportunities Fund III, L.P.	14.6	0.9%
Nycomed Holdings A/S	Avista Capital Partners II, L.P. Avista Capital Partners, L.P. Coller International Partnership IV, L.P.	14.0	0.8%
Allied Holdings, Inc.	BDCM Opportunity Fund II, L.P. Yucaipa American Alliance Fund I, L.P.	13.7	0.8%
PTC Alliance	BDCM Opportunity Fund, L.P.	12.8	0.8%
Ceridian Corporation	Ares Corporate Opportunities Fund II, L.P. Thomas H. Lee Equity Fund VI, L.P.	11.4	0.7%
LB SRAM Holdings	Trilantic Capital Partners IV L.P.	11.3	0.7%
Total		\$176.2	10.7%

Note: Undisclosed debt securities are not included in this analysis.

- As of December 31, 2010, the top ten companies represent 10.7% of the total Portfolio's market value, or \$176.2 million.
- AmeriCold Realty Trust, a real estate investment trust which operates 102 temperature controlled warehouses, is the Portfolio's largest exposure and is held in two partnerships.
- Five of the ten top holdings are held in multiple partnerships within the portfolio.

III. Asset Allocation (cont.):

**Pension Fund Asset
Allocation Recommendation
Teachers' Retirement System
of the City of New York
June 2, 2011**

Robin Pellish 203-621-1723
Chris Lyon 203-621-1718
Mike Fulvio 203-621-1716

Background

- At the May 12th Investment Meeting, the Board reviewed various candidate portfolios and provided feedback on the proposed asset allocation policies. As a result of that feedback, the following slides detail the asset allocation policy recommendation of the Bureau of Asset Management and Rocaton. This recommendation is consistent with the long term trend of the Teachers' Retirement System moving towards diversifying the various sources of risk and return in the Pension Fund.

- Notable characteristics of this recommended new asset allocation are as follows:
 - Versus the current policy, lower expected volatility of 11.2%, down from 12.0%.
 - Greater utilization of the basket clause.
 - Increased allocations to existing asset classes including emerging market equities, opportunistic fixed income, and convertibles, as well as a new asset class, emerging market debt. The increased allocations to these asset classes are funded through reductions to both U.S. and non-U.S. developed market equities.
 - Asset classes such as absolute return and commodities are not included in the proposed policy mix at this time.

- The following slides compare the capital allocation and expected risk/return characteristics of the current portfolio's long term targets versus the recommended portfolio mix.

Proposed Portfolio Mix

Teachers' Retirement System of the City of New York	Current Long Term Target	Recommended Target	Difference

IV. Opportunistic Fixed Income IPS:

NYC TEACHERS' RETIREMENT SYSTEM
June 2, 2011

Opportunistic Fixed Income: Investment Program Policy Statement

Purpose and Objectives

The Opportunistic Fixed Income Program (the "Program") will invest in sectors and actively-managed strategies of the Fixed Income market, as defined herein, whose sources of return and risk profiles are expected to differ meaningfully from the Fund's Core + 5, Enhanced Yield and U.S. TIPS programs (the Fund's "traditional fixed income strategies") over market cycles. It is anticipated that these sectors and/or strategies will offer higher returns than traditional fixed income strategies, exploit return opportunities that offer diversification to the total Fund, and exhibit volatility (measured by standard deviation of returns) that is meaningfully higher than traditional fixed income and could be similar to global public equity markets. In addition, the correlation of the Program to public equities in normal times is expected to be moderate, although in crisis periods can be quite high.

The Program will invest in sectors and strategies that because of credit rating, illiquidity, concentration, relatively short track record, underlying asset or liability, and/or other unique characteristics, would not typically be included in the Fund's traditional fixed income portfolios. The Program will enable the Fund to take advantage of changing opportunities in fixed income markets, particularly in markets where providers of liquidity may demand commensurate return premiums. As a result, the Program is intended to provide greater flexibility to pursue these investments in an opportunistic and disciplined manner, within a due diligence framework and established risk guidelines of the fixed income and total fund allocations. Although traditional fixed income offers liquidity, lower volatility, and diversification to equities, it also has several drawbacks and limitations, including low potential returns in periods of low and rising interest rates and exposure to negative corporate event risk, among others. Opportunistic fixed income strategies are designed to overcome many of these deficiencies by offering higher potential returns, offering risk premia for specialized knowledge, aligning interests between borrowers and lenders more effectively, and tapping unique manager skills to access markets ignored by traditional managers.

The operation of the Program is subject to the exclusive benefit rule and all other applicable laws, including requirements of prudence.

Asset Allocation

The Program, first approved by the Board in 2008, has been funded with an initial allocation of approximately 1% of System assets. The allocation of the Program is 0%-5% of the total Fund. It is envisaged that as specific market opportunities evolve or market conditions change, the allocation to the Program will be modified correspondingly.

Responsibilities and Delegation

Role of Board of Trustees

The Board shall:

- approve the Fixed Income Opportunistic Program Investment Policy Statement (“IPS”) and any changes to the IPS;
- review the Program at least annually and approve and adopt the Annual Tactical Investment Plan (the “Tactical Plan”), or more often as requested by Staff as opportunities arise;
- approve the retention, and review performance, of strategic consultants and advisors and other external resources, as needed;
- oversee performance and risk and Staff’s implementation of the Program;
- approve investments/terminations of investment strategies and managers, and/or delegation of manager retention/termination to Staff and/or consultant as deemed appropriate;

Roles of the Comptroller's Office Staff

The duties of the Comptroller's Office Staff ("Staff") include, but are not limited to:

- reviewing and recommending changes to the IPS, developing and implementing periodic reviews of the Program, which shall occur at least annually, and managing the operations of the Program;
- working with the System’s consultants on identifying and evaluating opportunistic sectors and strategies, investment managers, and investment vehicles or structures appropriate for the particular managers and for the Program, and on making selection recommendations to the Board;
- as needed, identifying and evaluating strategic consultants and advisors and other external resources for the Program, and making selection recommendations to the Board;
- overseeing the Fund's portfolio of Program investments, including management of consultants and advisors and other external resources engaged on the System’s behalf in connection with the Program with the objective that the Fund obtains the maximum value from those relationships;
- monitoring and reporting on performance and risk metrics as provided by the managers with respect to the overall purpose and objectives of the Program;
- monitoring and reporting on the performance of the consultants;
- working with the System’s consultants on ongoing advice on increasing or decreasing the amount invested in the Program;
- performing other work as necessary to implement this IPS, and
- verifying all investments, guidelines, and documents are consistent with this IPS, and noting any exceptions for approval by the Board.

Role of the Consultants

The duties of the Fund's consultants include, but are not limited to:

- providing advice to the Board and Staff with respect to the development and operation of the Program, including advice on industry developments and portfolio construction, with the goal of an overall Program risk/return profile deemed appropriate by the Board, Staff and the consultants, and monitoring capital markets for investment strategies and investment opportunities;
- assisting the Board and Staff in periodic reviews of the IPS and the Program, and making recommendations to the Board concerning the Program strategy, tactics and policy changes;
- working together with Staff to provide the Board with a Tactical Plan for the Program;
- assisting Staff in identifying, evaluating, and recommending investment opportunities and terminations consistent with the IPS and believed to be appropriate for the Program, including conducting due diligence with respect to new investments, as requested;
- assisting Staff with the implementation, negotiation and execution of new investments;
- advising the Board and Staff on how the Program fits into the System's overall asset allocation and risk/return objectives;
- providing ad-hoc advice or knowledge of specific investment managers, sectors, strategies, and investment structures;
- working with Staff on ongoing advice on increasing or decreasing the amount invested in the Program;
- assisting Staff with the ongoing monitoring of committed investments, including reports to the Board on significant manager developments, proposed amendments to fund documentation and investment performance, and periodic and timely review of the risk of the System's investment portfolios, and
- fulfilling such other purposes as the Board, and Staff, may approve.

Role of the Investment Managers

The duties of the investment managers the Fund allocates to include, but are not limited to:

- selecting and trading underlying investments, selecting service providers and trading counterparties, and otherwise fulfilling their roles as investment managers of their respective funds consistent with offering documents, investment guidelines, termsheets, and other legal documentation;
- providing ongoing reporting to the System, Staff, and consultants as applicable, and responding to reasonable ad hoc requests from the Board or Staff relevant to the fund;
- highlighting portfolio risks on a timely and proactive basis, and
- meeting with the Boards, Staff, and consultants as needed to explain the market and portfolio investments, given their high level of discretion.

Benchmarking

The Program is expected to achieve enhanced returns versus traditional fixed income benchmarks over a multi-year cycle. The primary performance objective for the Program is to earn a 10% absolute net return. The Board recognizes that benchmarking this portfolio is difficult given the potentially idiosyncratic nature of the investments, diverse opportunity set, and the lack of a comparable manager universe. Recognizing these limitations, the portfolio's net returns will also be reviewed against a secondary benchmark: the JP Morgan Global High Yield Index plus 3%, net of all fees and expenses, over a full market cycle (typically 5 – 7 years).

For each strategy and investment of the Program, Staff, in consultation with the appropriate consultant, will recommend an appropriate benchmark that reflects the risk profile and return objectives of the strategy and investment. Considerations will include liquidity (or the lack thereof), leverage, default risk, sector concentration, and security concentration.

Investment Operations

A. General Approach

The Program will permit the Board to consider unique fixed income sectors and strategies on a proactive basis subject to a framework of guidelines, due diligence standards, and procedures for monitoring and reporting. The Program's overall objective is to outperform the broad fixed income markets within established risk guidelines through established measures of volatility, illiquidity, concentration and organizational risks.

It is expected that the opportunistic investments included in the Program may have one or more of the following characteristics:

- Illiquidity of individual securities and investment vehicles (e.g., securities are often private placements with no active secondary market, and limited partnership vehicles or commingled fund structures with limited opportunities for withdrawal are commonly used)
- Private market direct loans or private securities
- Low credit quality / higher-than-average default risk
- Investments in non-dollar denominated securities
- Sector concentration (e.g., distressed mortgage and real estate lending)
- Security concentration
- Complex securities that may be difficult to price and evaluate
- Some strategies may involve short selling and/or use of derivatives
- Shorter track records (implicit in opportunistic investing is the willingness to invest with newer strategies and firms)
- Performance-based fees

Most of these characteristics present strategy-, sector-, and security-specific risks, which can be assumed only if the due diligence effort has confirmed the expectation of reasonable levels of excess returns and/or diversification benefits at the Program level, in keeping with the return/risk profile of this IPS.

Potential investments to be considered for the Program may have “cross-over” characteristics with other asset classes. For example, investments in distressed debt securities may lead to a private equity position via a capital restructuring process. It is intended that such assets with “cross-over” characteristics will be considered part of this Program allocation, though Staff may propose a change in classification for Board approval.

Strategies within the Program may be non-diversified, meaning that the managers of such strategies may structure an undiversified portfolio of assets of a certain type, sector, or geographic location based on an assessment of relative value or opportunity for outperformance. To mitigate risk of potentially non-diversified strategies, the maximum initial allocation to each manager within the Program should not exceed 0.5% of the total Fund’s assets at the time of investment. The maximum allocation over the life of the investment will not be greater than 1.0% of the total Fund’s assets, subject to Staff review and subsequent Board approval. Staff will approach the Board if Staff determines that an increase in allocation over 1.0% is necessary. Diversification of the Program will be provided through a bottom-up approach by aggregating and consolidating each manager’s respective termsheet/investment guidelines. In addition, the Program will be diversified in terms of:

1. Economic sectors
2. Geographic location
3. Manager/ General Partner
4. Investment strategies
5. Securities

The Program is not expected to provide a source of liquidity for the Fund, and accordingly, investments may be illiquid.

B. Opportunistic Fixed Income Sectors and Investment Strategies

Sectors and strategies eligible for the Program may include, among other assets:

Sectors:

- Bank loans
- Private mortgage loans
- Real estate debt
- Direct corporate/high-yield loans
- Asset-backed lending/securities, including Asset-backed securities (ABS), Commercial mortgage-backed securities (CMBS), Residential mortgage-backed securities (RMBS), and leases, among others
- Structured notes
- Global bonds, including emerging market debt
- Post-reorganization / restructured equities (stand-alone public equities will be excluded from consideration unless authorized by the Board)

Strategies:

- Distressed debt (including corporate loans, real estate loans, and structured finance)
- Mezzanine financing

C. Annual Review

Staff, with assistance of the consultant(s), shall present to the Board an annual review of the Program, including the overall allocation to and investments within the Program and recommended changes to the IPS, as appropriate, and how the System's allocation to opportunistic fixed income fits into the System's overall asset allocation. The report will include an assessment of market conditions and valuation within each subsector of the market.

D. Investment Implementation

1. Sectors and Strategies

In the Tactical Plan, Staff, in consultation with the consultant(s), will identify advisability of the current allocation to the Program, as well as potential opportunistic strategies and investments for the Board's consideration. The Tactical Plan will include an assessment of market conditions and valuation within each subsector of the market, an analysis of where capital should be re-deployed in the Program at the sector, strategy and manager levels, and what the target allocation to the Program as a percentage of total Fund assets should be.

2. Manager Selection

Staff and consultants will identify investment managers and/or investments that focus on sectors or strategies identified in the Tactical Plan. Evaluation criteria shall generally include: i) the depth of experience of the firm and its investment team, ii) the firm's investment research process, operational due diligence and risk management capabilities, iii) performance and risks taken to achieve performance, iv) fees, v) the firm's capacity to handle the size of the investment mandate, vi) alignment of interests with the System's vii) capabilities related to Staff training and access to managers and knowledge sharing and viii) other criteria set forth in this IPS under Minimum Requirements, taking into account deviations appropriate to the unique characteristics of particular opportunistic strategies. Staff and consultants shall set and share with the Board the criteria for the selection of each investment manager or redeployment of capital.

Staff may, but is not required to, issue a request for qualifications ("RFQ") or request for proposals ("RFP") to help identify new strategies and investments. It is recognized that the nature of opportunistic investments may not lend themselves to an RFP process.

3. Investment Structure

Investments may be differently structured, depending on the characteristics of particular opportunistic strategies. Permissible structures include (without limitation): separate accounts under management by an investment manager engaged by the Board; commingled structures such as limited partnerships, limited liability companies, common

or collective funds, and similar structures; secondary partnership investments; co-investments, and direct investments.

The following considerations will generally apply with respect to legal structure:

- Strategies involving derivatives (including, but not limited to, futures, options, swaps, and forward agreements), leverage, short selling, shall generally be structured as a limited partnership or limited liability arrangement. In no event shall the System be a direct party or counterparty to any such investment. Furthermore, any such investment must generally be structured so as to limit the Fund's liability to the amount invested.
- All legal structures shall provide for documentation (*e.g.*, an investment management agreement, offering memorandum, or other documentation) of specific, written investment guidelines that outline investment philosophy and approach, representative portfolio characteristics, permissible and restricted procedures, strategies, securities, and an appropriate performance benchmark commensurate with targeted investment return, risk, and illiquidity.
- Evaluation of the suitability of any commingled structure may take into account factors such as: legal structure and domicile of the investment vehicle, arrangements for custody of assets, the laws and regulations of the domicile and countries where investments are made, whether or not the manager or other principals are registered with the SEC or other appropriate regulatory authorities, characteristics of other investors, roles and characteristics of material third parties (*e.g.*, administrators, prime brokers, vendors and counterparties), and fees and expenses resulting from the use of the particular commingled structure.

4. Minimum Requirements

The following shall be the minimum requirements for all investments of the Program:

- Every investment presented to the Board must have an economic and valuation-based rationale for inclusion in the Portfolio;
- Investments, strategies, and managers must be projected to add value to the total Program from a risk and/or return perspective;
- The investment manager or other principals shall demonstrate relevant skill, experience, and expertise in the strategy they propose to execute and the market in which they propose to operate;
- The manager's proposed strategy and business plan shall be set forth in sufficient detail as to permit substantive and meaningful review of the investment opportunity, verification of the investment concept, and evaluation of the appropriate risk factors;
- The Manager's proposed strategy and business plan shall provide reasonable assurance that the investment opportunity can produce the target risk and return profile;
- The risk anticipated in the strategy and market is justified by and compensated for by the potential gains of the proposed investment, based on reasonable assumptions;

- The investment manager's registration as an investment adviser with the SEC or applicable local regulatory body (e.g. the Financial Services Authority in the UK) is strongly preferred;
- The investment manager or other principals shall provide financial statements that comply with geographically appropriate accounting standards (e.g., U.S. GAAP, International Financial Reporting Standards) and any other financial reports and other information required by Staff to assess and account for performance, fees, expenses, invested capital, and any other items affecting the investment. Monthly and quarterly investment updates are expected from investment managers or other principals with respect to each investment. Financial statements provided for commingled structures, such as limited partnerships and LLCs, must be audited by a reputable auditing firm;
- There must be reasonable controls over the valuation of the investment, which may include annual audit, a valuation committee, use of third party administrators or other third parties to value assets, or other procedures and controls. Staff shall assess the valuation methodology for the investment in light of the investment's liquidity profile and receive reports of, or have the right to request, supporting information regarding the valuation of assets within the investment, and
- All investments must have reasonable and well-defined policies for exit. If exit is limited (e.g., in the case of limited partnerships), there must be a mechanism and timetable for exit. Liquidity should be appropriate given the underlying assets of the portfolio.

5. *Investment Guidelines and Prohibited Investments*

- *Investment Sizing* – The maximum allocation to an individual manager will be reviewed with the Board and monitored by Staff as appropriate;
- *Authorized Use of Derivatives* – One or more strategies may provide for the use of derivatives to assist in the efficient management of risk, asset allocation and market exposures, through the use of tools such as futures, options, swap agreements, or forward agreements. Derivatives used for the purpose of speculation shall be limited. Currency strategies using derivatives other than for hedging purposes are not permitted. The implementation of the derivatives strategies shall be thoroughly vetted by Staff and the consultants. Investments involving derivatives (including but not limited to futures, options, swaps, and forward agreements, other than for currency hedging) generally shall be structured as a limited partnership or limited liability arrangement. In no event shall the System be a direct party or counterparty to any such investment;
- *Use of Leverage* – Leverage may be used in the implementation of specific strategies within the Program. In such instances, Staff and the consultants will consider the role that leverage plays in achieving the goals of the strategy and the risks that are associated with the use of leverage. There will be no leverage applied at the Program level. Managers will be allowed a maximum of 1X leverage for senior loans, defined as capital provided to a borrower or firm that is senior to equity and other lenders. Other types of financial leverage will not be permitted. Economic leverage will exist through the use of derivatives where a margin of deposit is required before trades can be executed;

- *Proxies* - Generally, investment managers will vote proxies in accordance with the managers' policies for the strategy. However, in the event the System enters into a separate account relationship and if appropriate to the strategy, securities held in a separate account may be voted by the Comptroller's Office in accordance with the Fund's proxy voting policy;
- *Prohibited Investments* – Certain of the Board's investment policies prohibit certain investments, including investments that are likely to cause job losses in the public sector or those that are likely to pose reputational risk to the System. In the course of the due diligence process, and where appropriate to the strategy or investment, Staff will apprise potential managers of the types of prohibited investments and will require agreements to provide opt-out rights and/or satisfactory side letter language with respect to any investment that is prohibited;
- *Conflicts of Interest* - Investments shall be reviewed by Staff and the consultants for potential conflicts of interest. Managers must either agree to comply with the Ethics and Compliance Policy of the Fund or have documented policies and procedures to address conflicts that are deemed satisfactory by Staff and the consultants. Managers shall be required to agree in a side letter or similar document to implement such policies and procedures;
- *Transparency* - Staff and the consultants will evaluate the transparency available for each investment opportunity considered for the Program, establish manager reporting requirements and provide the reporting requirements to the manager. For this purpose, transparency may mean holdings-level detail, reporting of investment transactions and cash flows, or other relevant measures, and
- *Custody* – Staff and the consultants will evaluate arrangements for the custody of assets, including whether custody should be maintained with an independent, recognized institutional custodian bank or other recognized financial institution. Unless otherwise approved by the Board, the custodian will provide a report of all assets and transactions to Staff and the consultants on a quarterly basis (monthly where available). Staff and the consultants will review the reports to ensure compliance with guidelines and the stated investment process.

6. *Due Diligence Process*

- Staff with the assistance of the consultant(s) will vet each opportunity presented to the Board;
- Financial and investment data should be collected not only from the manager of the prospective investment or from databases or commercial services that rely upon managers for their data, but also directly from sources independent of the manager, such as third-party custodians, independent auditors, and entities in which or with which the manager invests;
- Staff and/or consultants, where appropriate, will perform on-site due diligence for investment managers being considered by the Board;
- Staff and/or consultants will provide written analysis and a recommendation for each investment that include a ranking process for the following categories:
 - i. Organizational structure and stability
 - ii. Qualifications and experience of people
 - iii. Investment philosophy

- iv. Investment strategy and process
- v. Risk management and measurement
- vi. Operations and infrastructure
- vii. Role of the Investment in the Program
- viii. Fit with IPS, Tactical Plan and existing Program
- ix. Fees and expenses
- x. Key investment or contractual terms
- xi. Satisfaction of minimum requirements

The report will include comparable opportunities and a rationale for the recommendation. The report will also address issues, if any, resulting from due diligence review of matters addressed by the Additional Guidelines and Prohibited Investments above. A detailed analysis on the benchmark chosen and a rationale for its appropriateness will be included, and

- Staff will make investments and commitments consistent with limitations on the Program.

7. Monitoring and Reporting

- All investments and managers in the Program will be monitored and reviewed on an ongoing basis by Staff and consultants. Investments will have stated dates for review, at least quarterly with a monthly performance snapshot, and re-evaluation, as appropriately stated in the original written recommendation presented to the Board;
- Staff and consultants will design and provide the Board with a report package for the Program based on characteristics of each strategy and investment within the Program at least annually;
- A performance review will be conducted at least quarterly. There is recognition that some opportunities will have a reporting lag. This lag should not be more than 3 months;
- The quarterly performance review should incorporate return, risk, and market value for each investment and be segmented by an appropriate classification;
- The quarterly performance review will include an assessment of the valuations and whether valuations have been conducted in accordance with the valuation methodology;
- Staff and/or the consultants should conduct regular monitoring and at least an annual meeting with each investment manager;
- Staff will present an annual performance review to the Board that shall report on the Fund's overall allocation to, and investments within, the Program, and will review the underlying economic and credit-market conditions. The annual report will include relevant risk and return measures including short and long term performance, program diversification exposures and overlap. The metrics used will be analyzed over quarterly, 1, 3, 5 and 10 years, calendar years and over rolling 3 year periods – as the program develops, and in consideration that securities may be held at cost until realization of returns;
- The annual review will also include rationale for maintaining, adding or reducing assets to the Program;

- The following factors may be considered during the monitoring process, among others as appropriate:
 - i. Risk exposures, performance, and volatility in comparison to the assigned benchmark;
 - ii. Changes in market opportunities;
 - iii. Liquidity;
 - iv. Fees and expenses incurred in connection with the investment;
 - v. Stability or changes in organization, ownership, key personnel, investment philosophy, strategy, process or assets under management;
 - vi. Risk management;
 - vii. On-going fit with the IPS and the Program;
 - viii. Legal or regulatory issues including pending actions or investigations brought by regulators or third parties;
 - ix. Good standing with regulatory bodies and other investors;
 - x. Adherence to stated investment objectives and strategies (i.e. style drift);
 - xi. Transparency with respect to fees and conflicts of interest;
 - xii. Adequacy of reporting information and disclosures, and
 - xiii. Responsiveness to investor inquiries.
- Staff shall place investments on the watch list in accordance with the System's standard investment policy procedures.
